“ Oh... My dear aunt Tammy, where do I even begin with you and the relationship we had and always will. I will never forget the memories you and I said together as I got older we became like glue on one another. I will never forget the times you asked me to cut or color your hair.. Anytime you needed it done I always said I would be happy to do it for you.. That's always a memory with moments I will forever cherish. I will never forget all the laughs we had, most importantly the kind of laugh you made when you found something so hilarious.. I will never forget the nights and weekends we spent together. We never had a dull moment with one another. There are so so many more.. I could go on and on.. But the most important characteristic you had about yourself that I will never forget is your love towards me. Around the age of 19 is when we became so close. You were always there for me, i was always there for you. And we would both do the best we could for each other if one of us ever needed anything... I still haven't completely processed you being gone away now. You were and always will be one my close friends not just my aunt. I love you and miss you beyond words can express. Rest In Peace Aunt Tammy. <3
